Marlin Steel PPE Products for Infectious Disease Control

When COVID-19 cases began to rise, Marlin Steel got to work designing steel wire forms for medical and pharmaceutical applications and infectious disease control. Alongside producing stainless steel test tube racks for COVID-19 testing, Marlin Steel manufactures hand sanitizer stands and dispensers to protect your staff as they now begin to return back to work.

If you're looking for other ways to maintain infectious disease control, Marlin Steel also offers PPE equipment for your employees, including face shields and goggles. Reach out to one of our experts with inquiries about our PPE products!
